

ENVIRONMENTAL POLICY

1. PURPOSE

- 1.1 This Policy aims to integrate sustainable development into our organisation's activities and to establish and promote sound environmental practices in our operations.

2. POLICY STATEMENT

- 2.1 We recognise that environmental issues are global in scale, and various initiatives such as creating a low-carbon society that alleviates climate change, preserving biodiversity and the global environment, and using energy, water, and resources sustainability are essential and long-term concerns that all individuals and organisations must address.
- 2.2 We are committed to conducting our business in an environmentally responsible and sustainable manner. This commitment is part of our aspiration to minimise environmental impact and achieve sustainable development for social and economic progress and environmental conservation.

3. POLICY

- 3.1 We commit ourselves to minimise our impact on our environment through:
- (a) Comply with all applicable environmental laws, regulations, and other relevant requirements;
 - (b) Contribute to environmental sustainability by:
 - Ensure the responsible use of energy and water by adopting energy-efficient technologies and practices
 - Conserve natural resources by reducing waste and reusing and recycling
 - Work with contractors and suppliers who promote sound environmental practices
 - (c) Continually take steps to improve our environmental performance;
 - (d) Take a precautionary approach to environmental risks and seek to reduce potential adverse impacts on the environment;
 - (e) Foster environmental sustainability awareness among our people, business partners, and suppliers to achieve our environmental goals
 - (f) Supply green energy to our tenants in our industrial parks and resorts and scale up the deployment of renewable energy.
